

# DISCOVER UNITED KINGDOM

A country that, despite looking to progress and the future at the same time, also remains attached to its strong and glorious past.

You will visit the first building in the world to be illuminated by hydroelectricity, a reserve with magnificent coastal views and extraordinary wildlife with terns in summer and gray seals in winter, a mysterious gallery / passage with rooms and corridors covered with mosaics of shells (clams, oysters, mussels etc), an open-air theater among the most spectacular in the world not only for its splendid architecture but also its suggestive coastal panorama, a majestic coastal path on the Atlantic Ocean with rocky headlands and high cliffs, a village with picturesque 17th century stone cottages with sloping roofs, pristine beaches, a peculiar uninhabited island with basalt columns rising like organ pipes, castles with a magical and mysterious atmosphere and archipelagos of remote islands with small typical villages and pristine nature.
