

EXPLORE NORWAY

Norway is known for its stunning fjord scenery and spectacular atmospheric phenomena such as the midnight sun and northern lights, but the country has many other notable attractions as well. You will be able to visit the fascinating ruins of the oldest monastery in the country, explore a fishing village with the largest colony of cute puffins in Norway with over 350,000 birds, admire beaches and turquoise waters similar to those of tropical environments but in the arctic of the country, and finally travel to remote islands in the middle of the Arctic Ocean surrounded by ice walls, polar bears and absolute silence in total contact with the surrounding nature.
